Students seeking to re-take the Entrance Exam

Students seeking admission to the Program will be required to take the entrance exam given by the Program administration to all candidates. This test consists of both an oral practical and a written component. A grade of B- must be obtained in order to be accepted into the professional phase of the Program. If the exam is not passed the first time, there will not be an opportunity to retake the exam until the following year. In this case, any student anticipating challenging the exam must audit the PED 2511 and PED 2512 the following academic year.

In addition, students will resubmit their written application, physical, and updated transcript. The due date for submission will be the Monday before the last day of the fall semester of the respective academic year. Students will be re-interviewed and submit any documentation at the interview (new unofficial transcript + preceptor recommendation). After that process it will be determined if they qualify to sit for the entrance exam.
