GE Distribution Courses

Approved GE Distribution Courses

All courses taken under the General Education Disciplinary/Interdisciplinary Distribution

requirements must be selected from the Approved General Education Distribution Course List.

These courses are designated as GEHU, GESS, and GESM.

GEHU Humanities

GESS Social Sciences

GESM Science and Mathematics

Foreign Language Credit

The three credits for a foreign language that may satisfy the GE Disciplinary/Interdisciplinary

Distribution Requirement are awarded only upon successful completion of the second of two

semesters of study at the introductory or intermediate level.

Credit for the first semester may be used as elective credit.

UNIVERSITY REQUIREMENTS

GE 1000/3000 Requirement

All undergraduate students must satisfy this University requirement for graduation by successfully

completing one of the following courses at Kean University: GE 1000 Transition to Kean (all

freshmen and transfers entering with 0-29 credits) or GE 3000 Transfer Transitions (transfers

entering with 30 credits or more).

Writing-Emphasis Requirement

All students are required to complete one "Writing-Emphasis" course. The "W-E" course must be

within the major portion of your program. Consult your major program advisor for specific

information.

Note: Equivalent courses may be prior General Education or prerequisite course work taken by students that is now discontinued.

(78305) B.S. Computer Science

⁴ Students who do not qualify on the placement test to take MATH 1054, must take MATH 1000 first (In this case, MATH 1000 will fulfill Free Electives). Students eligible to take MATH 2415 based on their placement test may take that course in place of MATH 1054 (In this case, MATH 2415 will fulfill GE Foundation Requirements and the student may take an additional 3 credits in Free Electives to total 120 S.H.).

⁵ Students who have had prior programming experience may enter CPS 2231 directly with approval of the Departmental Advisory Committee (In this case, CPS 2231 will fulfill GE Science and Mathematics Distribution and the student may take another 4 credits in Major Electives to total 120 S.H.).

⁶ A 2-semester Lab Science sequence, with 4 credits in GE Science and Mathematics Distribution and 4 credits in Additional Requirements. Both Lab Science courses must be from the same department (BIO, CHEM, or PHYS).

⁷ With approval of the Graduate Program Coordinator, undergraduate students may take up to two CPS 5xxx level graduate courses as Major

Electives (NOTE: For any graduate course to be credited towards the graduate program, students must take additional credits in Major or Free Electives to total 120 S.H.).

⁸ Optional Freshman Research Course

Students can take 1 credit which may fulfill Free Electives requirements

with approval of the Departmental Advisory Committee. CPS 1996

Research Initiative for Freshmen is recommended to be taken in the

second semester of the freshman year. CPS 1996, CPS 2010 are

courses acceptable for use in Free Electives and are managed by the

School of Computer Science and Technology.

⁹ Optional Internship Course

Students can take a maximum of 6 credits for CPS 3291/92/93 Career

Internship in CS which are internship courses acceptable for use in Free

Electives managed by Career Services. Students interested should
