LUMP SUM CRITICAL ILLNESS

Policy Series A72000

LS^{CI}

The Need

Getting the best out of life: It's something that everyone strives for. And the assurance of knowing you're safe and sound plays a large part in being able to enjoy it to the fullest. With heart disease being the leading cause of death in the United States and strokes affecting about 795,000 people each year,¹ Aflac's Lump Sum Critical Illness plan can help with the treatment costs of these illnesses and health events.

More importantly, the policy helps you focus on recuperation instead of the distraction and stress over the costs of medical and personal bills. With Aflac's Lump Sum Critical Illness plan, you receive cash benefits directly—giving you the flexibility to help pay bills related to treatment or to help with everyday living expenses.

And unlike some other plans and coverage, the Subsequent Critical Illness Event Benefit has no lifetime maximum if you have a recurrence or another illness. That means as a policyholder, you've got the security of knowing that you will still receive benefits if you have another covered illness later in life.

THE LUMP SUM CRITICAL ILLNESS INSURANCE POLICY:

- Has no lifetime maximum.²
- Is completely portable.
- Is Guaranteed-Renewable for your lifetime.

CONSIDER THESE FACTS:

- In 2012, an estimated 1.25 million people will experience a heart attack.¹
- About every 34 seconds, someone suffers a heart attack.¹
- Every 40 seconds, someone suffers a stroke. About 795,000 strokes occur in the United States each year.¹

No one wants to think that a serious illness could occur, but shouldn't you consider how you and your family would manage if you were unable to work due to an illness? An Aflac Lump Sum Critical Illness policy could make a difference to your well-being, your family, and your future.

WHAT IS NOT COVERED

LIMITATIONS AND EXCLUSIONS: Aflac will not pay benefits for any Loss that is caused by a Pre-Existing Condition unless it begins more than six months after the Effective Date of coverage. Benefits are payable for only one covered Loss at a time per Covered Person.

Aflac will not pay benefits for any event that is diagnosed or treated outside the territorial limits of the United States, its possessions, or the countries of Canada and Mexico.

Aflac will not pay benefits whenever coverage provided by the policy is in violation of any U.S. economic or trade sanctions. If the coverage violates U.S. economic or trade sanctions, such coverage shall be null and void.

For any benefit to be payable, the Onset Date of the Loss must occur on or after the Effective Date of coverage and while coverage is in force. If more than one Loss per Covered Person occurs on the same day, only the highest eligible benefit will be paid.

The policy does not cover Loss caused by or resulting from: (1) using any drug, narcotic, hallucinogen, or chemical substance (unless administered by a Physician and taken according to the Physician's instructions) or voluntarily taking any kind of poison or inhaling any kind of gas or fumes; (2) participating in, or attempting to participate in, an illegal activity that is defined as a felony, whether charged or not (*felony* is as defined by the law of the jurisdiction in which the activity takes place); (3) intentionally self-inflicting a bodily injury or committing or attempting suicide, while sane or insane; (4) being involved in war or any act of war, declared or undeclared; or (5) actively serving in any of the armed forces, or units auxiliary thereto, including the National Guard or Reserve (upon receipt of your written request, we will return the premium paid for the policy during such service on a pro rata basis).

PRE-EXISTING CONDITION LIMITATIONS: A *Pre-Existing Condition* is an illness, disease, infection, disorder, or injury for which, within the six-month period before the Effective Date of coverage, medical advice, consultation, or treatment was recommended or received. Benefits for a Loss that is caused by a Pre-Existing Condition will not be covered unless the Onset Date is more than six months after the Effective Date of coverage.

Sudden Cardiac Arrest is not a Heart Attack.

MAJOR HUMAN ORGAN TRANSPLANT: a surgery that was first recommended by a member of the medical profession after the Effective Date of coverage in which a Covered Person receives, as a result of a surgical transplant, one or more of the following human organs: heart, kidney, liver, lung, or pancreas. This includes the relationship created by a civil union. Newborn children are automatically insured from the moment of birth. If coverage is for individual or named insured/Spouse only and you desire uninterrupted coverage for a newborn child, you must notify Aflac in writing within 31 days of the birth of your child, and Aflac will convert the policy to one-parent family or two-parent family coverage and advise you of the additional premium due. Coverage will include any other Dependent Child, regardless of age, who is incapable of self-sustaining employment by reason of mental retardation or physical handicap and who became so incapacitated prior to age 26 and while covered under the policy. *Dependent Children* are your natural children, stepchildren, or legally adopted children who are under age 26. A Dependent Child (including persons incapable of self-sustaining employment by reason of mental retardation or physical handicap) must be under age 26 at the time of application to be eligible for coverage.

Any death where the sole cause of death shown on the death certificate is cardiovascular collapse, Sudden Cardiac Arrest, cardiac arrest, or sudden cardiac death shall be deemed to be Sudden Cardiac Arrest for purposes of the policy. Sudden Cardiac Arrest is not a Heart Attack.
